antonine PRINTING INKS LTD

DOLPHIN TISSUE

- Fully pigmented
- Clean running at high and low speeds
- Low foaming characteristics
- Good commercial light fastness
- Economy of use
- Non-flammable
- Non-toxic
- Kitchen towel version conforms to BS EN 646

Reduction to press viscosity is done by adding water only or can be supplied Press ready if desired.

Press Viscosity is determined to some extent by colour and design, anilox roller, screen and machine speed. This can be As low as 17" Zahn 2 and as high as 35" Zahn 2 when printing.

Foaming can be a problem with some ink circulation system and although DOLPHIN TISSUE inks are formulated to minimise foaming, small addition of antifoam in such cases will normally cure foam build ups.

The complete Colour Range of DOLPHIN TISSUE inks can be supplied, be it a standard colour, pantone matching or a specialist matching.
